OUTDOOR ENHANCEMENTS

BAR CAR

Drawn to the iconic Airstream trailers, Greg appreciates that they represent a time when life seemed simpler and less stressful. Inspired by this concept, Greg created Bar Car as a way to ease the stress and pressure of throwing a good party. Bar Car is available for private parties and events and can be customized to meet your needs.

Designed by Nomad Airstream of Upstate New York, Bar Car fuses mid-century modern design for a retro chic look to create a fun environment that is both inimitable and practical.

CORN HOLE & GIANT JENGA

Join in on the classic, simple and tons of fun lawn games!

Guests are able enjoy leisure entertainment or compete for bragging rights!

Corn hole, also known as tailgate, dummy boards, bean bag toss, or simply Bags, is an American lawn game in which players take turns throwing bags of corn (or bean bags) at a raised platform with a hole in the far end for points.

First to sink seven holes in ones or 21 platform landings wins!

The classic wooden block challenge is always the heart dropping mystery to when the tower will topple over!

Enjoy our oversized Jenga blocks in a race to see who has the best strategy and balance! Hold your breath!

Don't let the tower fall on your watch!
