NEARBY ACTIVITIES

Kalim Beach is considered one of the best surfing spots in Thailand, particularly between April and November (the low season). Here, skilled surfers and body boarders can complete rides of about 100 metres, with waves reaching up to three metres in height. Up on the hill above, visitors can sample zorbing – rolling inside a transparent plastic orb – on one of the world's largest tracks. Kalim also has several fine-dining restaurants to try, including the acclaimed Acqua, White Box, Lim's and Brush.
